Document Protection

To ensure that documents (hardcopy, online or other media) are available when needed, documents will be stored primarily on site but if needed, off-site storage will be used. The School may contract with vendors for cloud computing services, digital storage and educational software related to pupil records if they comply with the requirements of Education Code section 49073.1. With respect to document retention, the third-party contractor must certify that pupil records shall not be retained or available to the contractor upon completion of the contract. Failure to comply with the requirements in Education Code section 49073.1 may void the contract.

Document Destruction

At the end of each school year, hardcopy documents that are eligible for destruction shall be removed from the current-year filing systems and boxed with their potential destruction date and type of records clearly marked on the outside of the storage box.

When the destruction date is reached, hardcopy of documents will be destroyed by shredding after they have been retained until the end of the Document Retention Schedule. Online copies will be destroyed by proven means to destroy such media after they have been retained until the end of the Document Retention Schedule.

Provision of Documentation for Investigations or Litigation

Documents requested and subpoenaed by legally authorized personnel will be provided within the time period legally provided, and in accordance with any applicable Charter School policies. The Board Chair and Superintendent shall authorize provision of these requested documents. No documents will be concealed, altered or destroyed with the intent to obstruct the investigation or litigation.
