	Monday	2/29/16	Flabob Preparatory Academy
	Monday	2/1/16	Corona Student Center

Who is screened for Scoliosis?

All 7th grade girls and 8th grade boys will be screened

Note: Parents who would like to waive the testing can fill out a waiver form.

What is the purpose of the screening program?

Common spinal deviations often go unnoticed by children and parents, but detecting curvatures of the spine before a child's growth spurt is complete is important for optimal treatment. Parents will be notified if their student has a suspected spinal deviation and encouraged to follow up with a health professional.
