OCEANSIDE LEARNING CENTER

2015 WORKSHOP DESCRIPTIONS

Art—Meet the Masters

Become a Master Artist! This is an exciting art program where students will be introduced to famous artists, such as Norman Rockwell and Pablo Picasso, and learn the art history and elements of art from each artist. Students will then use creative and fun materials to recreate their own piece of art in a similar style to the artist studied.

Fun Arts & Crafts

Students will use creative expression to show their individuality each week through various arts and crafts such as finger-painting, drawing, decorating, and other hands-on activities. The class is designed to appeal to both boys and girls and includes activities for all interests and abilities. Bring your favorite Pinterest discoveries and we'll attempt to make them in class!

Hands-on Science

Students will become a "Mad Scientists!" The class will include hands on activities, games, group work, quizzes, and science experiments—all to inspire a love of science! They will foster their curiosity by exploring the concepts with their hands and minds.

Having Fun with Spanish:

Having Fun with Spanish: Join us for an adventure as we learn about the Spanish speaking world! Try a Spanish tortilla, dance a bit of Salsa, and learn about the land of the Incas with visitors who have been there! Sing, Dance, and Eat to learn some Spanish! No prior Spanish knowledge necessary. Olé!
