---

**Program Information**

Palm Springs Aerial Tramway

The Palm Springs Aerial Tramway constructed in rugged Chino Canyon on the north edge of Palm Springs was the dream of a young electrical engineer named Francis Crocker. Construction of the Tramway began in 1935 and was completed in 1963. The construction was an engineering challenge and was soon labeled the "eighth wonder of the world."

At the time of your visit, you can explore the history and technical workings of Aerial Tramway and visit the Mountain Station Natural History Museum. You can hike, picnic and enjoy the magnificent vistas, wildlife, land forms, and natural resources of the Santa Rosa and San Jacinto Mountains.

Whatever your interest, there is something for everyone to enjoy.
