

Don't Miss the RCOE Virtual Science & Engineering Fair Expo

You're Invited!

September 26, 2020

9am-1:00pm

Calling All Teachers ~ Parents ~ Students

Are you interested in learning more about the Science & Engineering Fair this year? Don't miss this fabulous opportunity to attend the virtual expo from 9:00am-1:00pm to gain ideas & inspiration!

Springs 8th grade Homeschool student **Gwyneth Mcintyre**, 13, will exhibit her award-winning research project at the Riverside County Office of Education's Virtual Science and Engineering Fair Expo 2020 event on September 26, 2020. Her project explored what type of toothpaste would protect her teeth best.She explained, "I recently got braces and wanted to make sure I was using the best protection, but I also like to use non-toxic products, so I wanted to find a protective natural toothpaste. I tested various brands on eggshells soaked invinegar because that was a close match to teeth with food wear and tear."

***Registration is Required for this Event. Please visit the link below for more information.**
