Unstructured, child-directed play is a critical component of healthy social, emotional, and intellectual development.

- Challenges children to be creative
- Increase their frustration tolerance
- Develops leadership skills as children work to resolve disagreements.

Through 17 interactive exhibits and activities guided by a highly trained professional staff, children learn foundational math, reading and science skills, while fostering curiosity, creativity, critical thinking, problem solving, organization, teamwork, self-confidence and socialization.

SPECIAL GUIDELINES:
