"LIGHT THE LAMP"

There is nothing more exciting in hockey than an Anaheim Ducks goal. Each tally illuminates a red goal light that signals to the team and the crowd, it's time to celebrate.

REGISTER TODAY! to explore the science behind the goal light. Knowing how to "Light the Lamp" takes more than hockey skills. It will require an understanding of how electricity works and completing a circuit that will take you from the classroom to the ice rink.

The First Flight STE(A)M inspired field trip will educate students within a highly exciting and entertaining atmosphere. It will combine learning from hands-on exhibits and displays, workbook activities, and best of all, students will be taught live and in-person by hockey's experts -- the Anaheim Ducks players and coaches!
